Hello

Our mission at Nunn Design for the past 15 years has been and continues to be:

“Through collaborative relationships, Nunn Design inspires and nurtures creativity.”

We strive to provide the beginning to advanced artist with all the supplies they will need to succeed in creating finished jewelry. Our company helps you succeed by providing consistent high quality American made jewelry components, by sourcing tools and products to distribute to our customers, by providing awesome customer service (if I must say so myself!), and by creating an online gallery of free jewelry tutorials and videos. Our jewelry components are crafted by a team of American artisans with generational experience and then tested and played with by myself, the Nunn Design Staff and our Innovation Team Members. All of this is done with the intention of inspiring and nurturing your creativity as well as our own.

I am so very grateful for my employees and the culture that we have built. I am proud beyond description of all the jewelry artisans that have entrusted their jewelry to us. We wouldn't be where we are today if it wasn't for your feedback, ideas, questions and commitment to follow your art.

Thank you,
Becky Nunn
