TO ASSEMBLE THE PENDANTS

STEP 1: (Image 1)

Pinch off two equal (large pea) size balls, of Part A (the color) and Part B (the hardener). Knead the two equal size balls fully together until the clay is a consistent color and not marbled.

STEP 2: (Image 2)

Pinch off a tiny bit of the mixed clay to use later in the center of each flower petal. Roll the remaining amount of epoxy clay into two equal size balls. Press one ball into the base of one of the coral bead caps. 1/2 of your clay ball should still be exposed. Press the second coral bead cap over and squish the two bead caps together. Repeat with remaining clay and bead caps.

STEP 3: (Image 3)

Using a head pin, press through the center of the two pressed together bead caps. This allows you to have a channel through the center once the clay hardens. Repeat with second set of bead caps.

STEP 4: (ImageS 4 & 5)

To add the flower to the elongated hearts, use the tiny bit of clay we set aside from step 2. Press the bead cap into the clay. Repeat with second elongated heart.

STEP 5: (Image 6)

Apply a small amount of clay inside of the bead cap and embed inside bead cap. Using the beeswax toothpick, pick-up the individual Chatons and gently press each into the epoxy clay in the center of the inside bead cap. Repeat.

STEP 6: (no image)

Allow all pieces to cure 12-24 hours before assembling your finished earrings.

TO ASSEMBLE THE EARRINGS:

STEP 7: (Image 7)

Using one of the headpins, trim off the head part with a pair of cutting pliers. Repeat with second headpin.

STEP 8: (Image 8)

Using a pair of needle nose pliers, make a large loop on one of the ends of the headpin. Repeat.

STEP 9: (Image 9)

Thread the headpin through the Coral Bead made in Step 2. Repeat with second Coral Bead.

STEP 10: (Images 10-12)

Using a pair of needle nose pliers, make a loop on the bottom half of the headpin. Prior to closing the loop, attach the Elongated Heart Charm. Repeat.

STEP 11: (Image 13)

Thread 3 headpins through three 3mm beads. Cut each of the headpins approximately 1/4" from the base of the bead with a pair of cutting pliers. Repeat with 2nd set of beads.

STEP 12: (Images 14-15)

Using a pair of needle nose pliers, make a loop on each of the 3mm beads and attach the beads and an ear wire to the large loop of the Coral Bead made in Step 8. Repeat.

Prepare for requests to make a pair for your friends!
