- 2 8mm beads of choice

TOOLS NEEDED:

- 2 Pairs of Flat Nose Pliers
- 1 Pair Flush Cutters

Beadcap Earrings

Designer: Becky Nunn

STEP 1: (Images 2-3)

Thread onto a Eyepin one of the 8mm beads and 1 of the Beadcap 8mm Flower Petals. The fit might be a little tight for the bead to insert into the opening of the beadcap. Press down gently on the beadcap and the petals will slightly bend around the beadcap. Thread on the second Beadcap 8mm Flower Petal so the petals are alternating.

STEP 2: (Images 4-5)

Thread on the remaining bead caps onto the Eyepin in this order; 1 Beadcap 6mm Petal, 1 Beadcap 8mm Etched Daisy turned upside down, and 1 Metal Bead Faceted.

STEP 3: (Image 6-10)

Trim away all but ¼ inch of the Eyepin using a pair of Flush Cutters. Create a loop using a pair of the flat nose pliers. Before closing the loop, add a Earwire Leverback. To ensure that the earring hangs correctly, make sure the top loop of the eyepin is at a 90 degree angle from the bottom eyepin loop.

STEP 4: (Images 11-14)

Using 2 pairs of needle nose pliers, open up one of the Jumpring 6mm Textured Circle and thread on the Metal Bead Faceted Drop and the eye of the assembled Eyepin. Close the jumpring.

STEP 5:

Repeat Steps 1-4 to create the matching earring set.
