

NUNN DESIGN[®]
 HOW TO CREATE A
 SHADOW BOX PENDANT

1

Select a Brass Stamping of choice that will fit nicely within an Open Bezel. If the stamping is too large, cut with a pair of flush cutters.

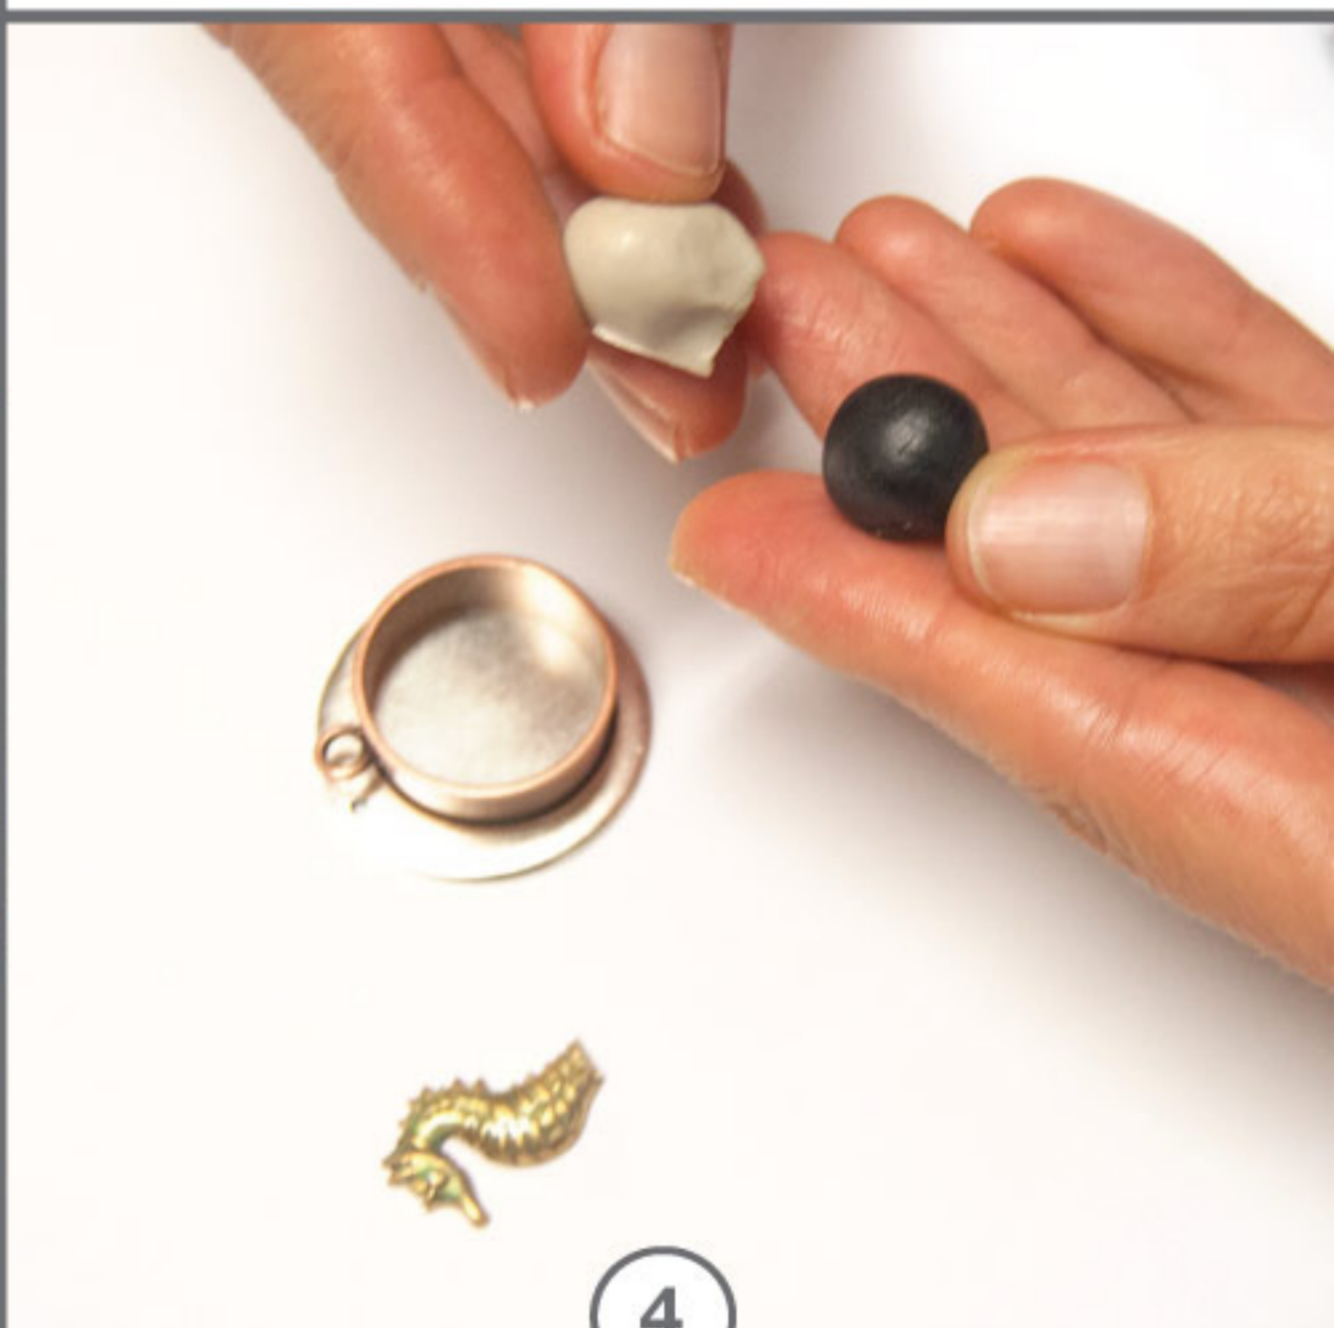

2

Pour onto a small zip-lock bag a wee bit of Nunn Design Sealant. Sprinkle in a PearlEx Powder color of choice. Stir together.

3

Using a paintbrush, paint onto your brass stamping some of the PearlEx Powder and sealant mixture. Let dry for 10 minutes.

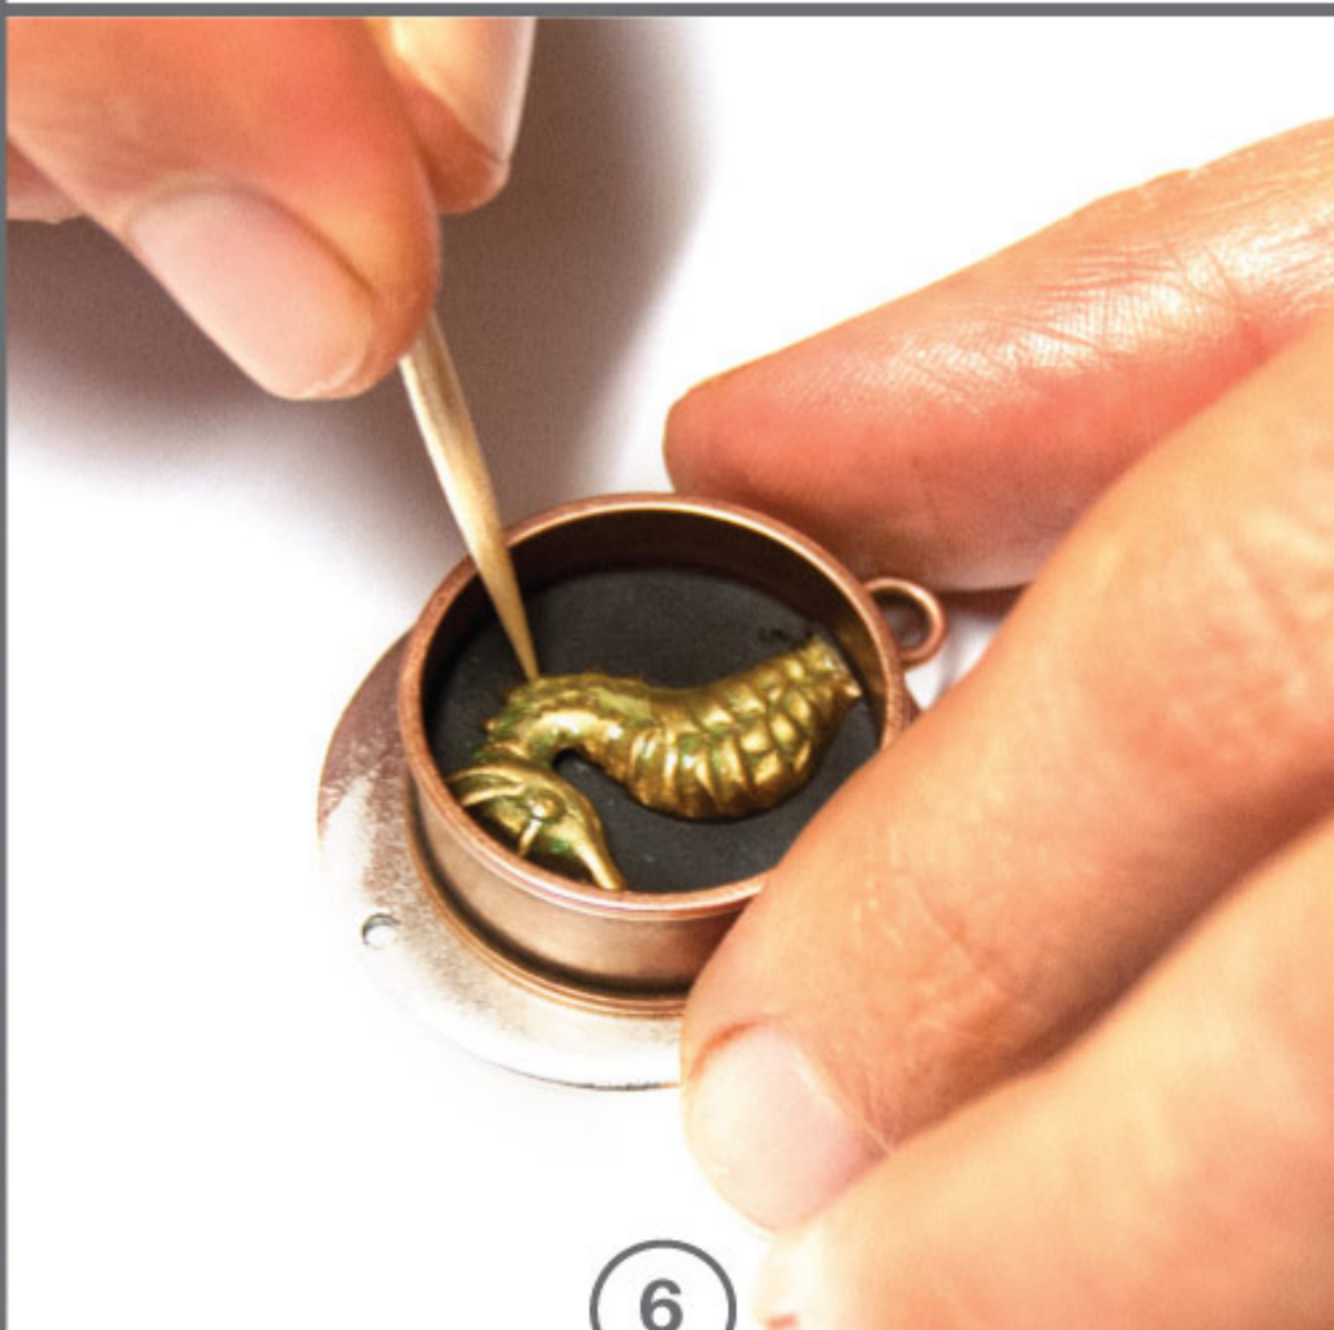

4

Mix up Crystal Clay: Pinch off marble sized balls of Part A and Part B and blend together fully until the clay is no longer marbled

5

Press the mixed Crystal Clay into Open Bezel connecting it to the Flat Tag and outside walls of the bezel. Press until the clay is flat inside.

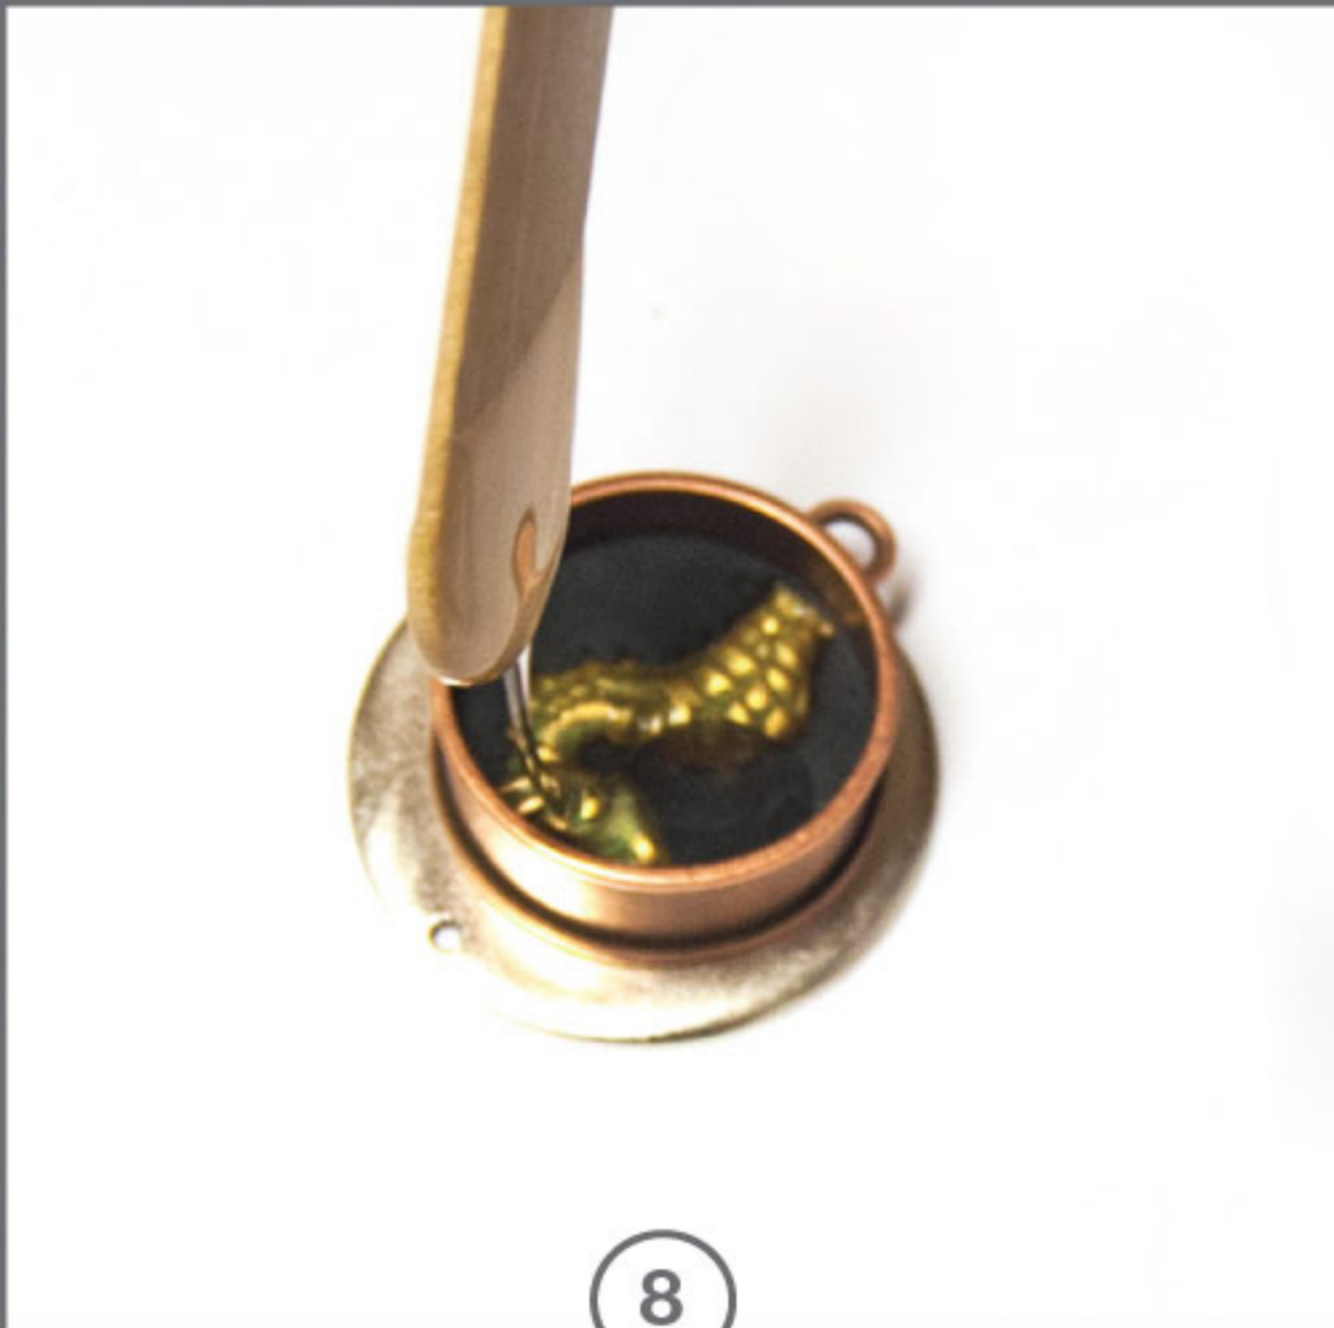

6

Lay the Brass Stamping into the center and press it down until embedded fully. If it is not, resin will seep under and cause bubbles.

7

Mix resin: Pour equal parts of A, then B, of Nunn Design 2-Part Resin into cup, mix for 2 minutes and put under lamp for 5 min.

8

Using a stir stick, drizzle the mixed Nunn Design Resin until it is 3/4 of the way filled.

9

Use a toothpick, poke gently checking to see if there are air bubbles. Breathing on resin will also make the air expand and pop.

10

Drizzle more resin into the open bezel until resin is domed. Let cure for up to 72 hours. Visit the piece often to check for bubbles.
